

CURRENT Options

Choose the energy source and rate plan that's right for your business.

Pomona-based businesses are free to choose their electric service provider as well as the energy mix and rate plan that makes the most sense for their business. Pomona Choice Energy and Southern California Edison (SCE) encourage local companies to compare their options before they choose which to use.

Monthly Usage: 924 kWh

*This comparison illustrates the estimated electricity costs for a typical business customer within the jurisdiction of the City of Pomona with an average monthly consumption of 924 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2023 to December 31, 2023 for all applicable SCE Schedule TOU-GS-1-E service accounts within the jurisdiction of the City of Pomona, SCE's published rates as of March 1, 2024, and Pomona Choice Energy's published rates as of August 1, 2023.

Generation Rate reflects the cost of producing or purchasing electricity to power your business. This rate will vary depending on your service and provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your business. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate Program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines through the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
