Choose the energy source and rate plan that's right for your business.

Pomona-based businesses are free to choose their electric service provider as well as the energy mix and rate plan that makes the most sense for their business. Pomona Choice Energy (POME) and Southern California Edison (SCE) encourage local companies to compare their options before they choose which to use.

Monthly Usage: 961 kWh

Rates are current as of April 15, 2022

*This comparison illustrates the estimated electricity costs for a typical commercial customer within the jurisdiction of the City of Pomona with an average monthly consumption of 961 kilowatt-hours (kWh). All comparisons are calculated using SCE's 2021 static load profiles (typical customer usage profiles), SCE's published rates as of April 15, 2022 and POME's published rates as of March 1, 2022.

Generation Rate reflects the cost of producing or purchasing electricity to power your business. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your business. This rate depends on usage.

Surcharges represent the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) and SCE customers that elect a Green Rate. The CRS is a surcharge to recover costs associated with power purchases made on behalf of customers prior to a customer's switch to a CCA or SCE Green Rate. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
